CAREER OBJECTIVE

Fresher Python/Django developer with hands-on project experience in backend development, REST APIs, and database design. Seeking an entry-level backend developer role where I can apply my skills, contribute to real-world applications, and grow under experienced mentorship.

TECHNICAL SKILLS

Languages	Python, JavaScript
Frameworks	Django, FastAPI
Web	HTML, CSS, REST API Development
Database	SQL, SQLite, MySQL
Tools	Git, GitHub, Postman
Concepts	Authentication, CRUD Operations, ORM, MVC/MVT Architecture

PROJECTS

MyBlog — Django Blog Website

- Built a complete blogging platform using Django with user registration, login, and authentication.
- Implemented full CRUD functionality allowing users to create, edit, and delete blog posts.

Tech: Python, Django, HTML, CSS, SQLite

Movie Ticket Booking Application

- Developed a full-stack movie ticket booking platform with show/seat selection and online payments.
- Built REST APIs with FastAPI and integrated JWT-based authentication and Stripe payment gateway.
- Designed an admin dashboard for managing movies, shows, and bookings.

Tech: Python, FastAPI, React, MySQL, SQLAlchemy, JWT, Stripe

EDUCATION

Bachelor of Computer Applications (BCA)

K.P. Dholakiya Infotech Mahila College, Amreli

Year of Passing: 2026 CGPA / Percentage: __ (add here)

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge.
